

SENIOR PRODUCT DESIGNER · ENTERPRISE SaaS · AI

Nandha Kumar Ilangovan.

(01) POSITION

6+ years designing enterprise and AI products, 2+ in design leadership. I turn research into shipped product decisions, and I can take a design from a Figma prototype all the way to production React and SwiftUI.

Experience

(02) 2019 – 2026

JUN 2025
– JUL 2026

Runara / Senior Product Designer

AI DEPLOYMENT PLATFORM · ENTERPRISE SAAS · SAN JOSE, CA

- Led end-to-end design for an enterprise AI deployment platform, working with Product and Engineering leadership to prioritize design problems and shape the core roadmap.
- Built a component-based design system in Figma and React (Material UI) that sped up UI development and gave every team a shared design language.
- Presented interactive high-fidelity prototypes to external developer customers, using design storytelling to align engineering and leadership, speed up feature planning, and simplify developer onboarding.

JAN 2024
– MAY 2025

Iowa State University / Graduate Research Assistant

PRODUCT DIRECTION & INTERACTION DESIGN · AMES, IA

- Led a cross-functional team of 2 designers and 3 developers, owning design direction and delivery.
- Owned product direction for an internal enterprise tool used by 50,000 people, cutting a core workflow from 14 steps to 8 through research and validation.
- A/B tested a navigation redesign with 200+ participants: task completion rose 18% and time-on-task fell by nearly a quarter.
- Took an AI detection tool from PRD to production with the ML team. Accuracy rose from 67% to 89%, handing about 2,000 review hours a month back to operations.

NOV 2022
– MAR 2023

Alfaleus Technology / Product Designer, Contract

HEALTHCARE · ENTERPRISE SAAS · HYDERABAD

- Ran usability testing with 25+ users and external partners on a multi-stakeholder healthcare platform, cutting critical errors 40% and raising task success 25%.
- Designed a WCAG 2.1 AA design system for web and mobile. Visual clarity scored 40% higher after launch.

JUN 2019
– AUG 2022

XR Labs / Product Designer

CONSUMER & ENTERPRISE · CHENNAI

- Designed consumer and enterprise UI used by 10,000+ people across 5 releases. Role-based dashboards cut onboarding time 34% and improved decision-making efficiency 20%.
- A/B tested conversion flows, raising checkout completion 15% and feature adoption 22%, and shipped all 5 releases on time with a globally distributed team.

Building

(03) NOW

Velotic

SEP 2025 – NOW

FOUNDING DESIGNER & ENGINEER

AI fitness & nutrition coaching for web, iOS and Android. Took it from 0 to 1: validated 3 directions, then built the design system, frontend and backend. Shipped a 10-phase WhatsApp coaching flow, live D3/Recharts dashboards, and Stripe + Razorpay payments for the US and India.

Cafe Cal

2026 · LIVE

SOLO DESIGNER & ENGINEER

AI food tracker built on Gemini Vision, live on the App Store and Google Play. Downscaling images on upload and locking responses to a JSON schema removed the retry loop and cut inference cost.

Craft
